# 50+ YEARS OF PROMOTING MENTAL HEALTH

## About Us

Founded in 1974 by pioneering psychologists, we have spent over 50 years promoting mental well-being in children and youth using psychological science. At a time when mental health awareness was rare, our founders recognized that fostering resilience in childhood was key to a healthier future.

Today, as a charitable organization with national reach, we continue this mission by providing evidence and psychology-based programs that equip young people, from birth to age 18, with essential coping skills. Our work focuses on three key pillars:

- **Attachment** – Strengthening early parent-child bonds.
- **Stress Management** – Teaching stress coping strategies.
- **Capacity Building** – Empowering youth for lifelong resilience.

Through a primary prevention approach, we empower children and youth directly—along with the parents, caregivers, educators, and professionals who support them—with practical tools to build resilience and thrive, laying the foundation for lifelong mental well-being.
